Ways to support and extend student learning in this subject

- Students will make flashcards to remember the performing skills, choreographic skills and terminology. Please use these to help students revise this information which they will need to know for the written exam.
- Students should be watching the professional dances at home, please feel free to watch with them and ask them questions about the dances to enhance their knowledge and understanding
- I will post opportunities for dance lessons, workshops and projects on our @fcc.dance Instagram account, please keep an eye on these as the more dance experience students get the better. Many of these opportunities are low cost or free.
- All of the resources from lessons are on Google Classroom along with all revision materials so students can access these at any time
