What do we look for?

Leadership
and ability to
take
ownership

Creative
problem
solving

Adaptability

Teamwork

Passion for
the business

Client Focus

Drive to
achieve

Communication

Why IBM?

- Make **friends** for life! IBM has around 20,000 employees in the UK, so there are plenty of social events going on in all locations!
- You can join some of the many **communities** and social groups we have such as Eagle (LGBT+), Girls Who Code, BAME, People with Disabilities and various location social groups and sports teams!
- We have your **professional and personal development** in mind. Not only do you have your dedicated task manager, but you also have an Early Professional Manager who is there to support your development and to help and guide you on your career journey.
- On your first day, you'll receive your **own laptop** and, depending on your role, your **own work mobile device**.
- You are supported in **everything** you do and are interested in; from learning **new skills** for a potential new role/promotion to **volunteering** and **giving back** to local communities or charities, IBM will help facilitate and sometimes even **fund** these choices!

Be you.

Let's stay connected.
